CONNELLVILLE, PA., MONDAY EVENING, JANUARY 31, 1916.

EIGHT PAGES.

H. C. FRICK COKE COMPANY ANNOUNCES WAGE ADVANCE; W. J. RAINEY FALLS IN LINE

New Scales Go Into Effect
In the Region To-
morrow.

ARE THE HIGHEST ON RECORD

Advance Agreeing 10 Per Cent
Affects All of Employees of
Steel Corporation Subsidiary;
Merchant Operators are to Follow.

Notice was posted at all of the plants of the H. C. Frick Coke Company today of a wage advance which becomes effective tomorrow. The new scale is the highest that has ever been paid in the region. An increase in wages was forecast some weeks ago when announcement was made of a wage advance by the United States Steel Corporation. When this announcement was made by Chairman E. H. Frick, it was stated that adjustment of wage scales for the mining companies was under advisement. This statement was taken to indicate that possibly the employees of the H. C. Frick Coke Company would not get their advance before April 1, but pending of the notice today put an end to such speculation.

Following its usual custom, the wage announcement was made to the men first. There was no statement issued from the Scottdale office, but this morning the notices were posted at all of the plants.

The new wage scale is as follows:
Mining and loading room and rib cut, 100 bushels, \$1.55.
Mining and loading heading cut, 100 bushels, \$1.75.
Mining and loading head cutting coal, 100 bushels, \$1.55.
Draining coke, per 100 bushels charged, 90 cents.
Leveling, per oven, 1 1/2 cents.
Drivers, rope riders, (drifts), full run, \$3.00.
Covers, per full run, \$3.00.
Fire pieces, per day, \$1.75.
Tracklayers, blasters and timbermen, (drifts), per day, \$1.75.
Assistant tracklayers and timbermen, (drifts), per day, \$1.75.
Dumppers and tipplers, per full run, \$2.50.
Chargers, per day, \$2.50.
Forking cars, 40,000 pounds, \$1.50.
Forking cars, 50,000 to 60,000 pounds, \$2.10.
Forking cars, over 60,000 pounds, \$2.10.

The Frick notices are to effect that all labor regularly employed in the operation of the plants will be given increases proportionate with the schedule announced. Extra time to be paid for as heretofore has been the custom and employees will be paid semi-monthly on the same dates as have been in effect.

W. J. Rainey employees will enjoy the same wages as paid Frick employees under the new scale. Announcement was made in Connellsville this afternoon that the new Rainey wage scale, which will be identical with that paid by the H. C. Frick Coke Company, would become effective at the same time.

It is expected that other merchant operators of the region will follow the lead of these larger companies and will immediately make an adjustment of their wage scales.

The last general wage adjustment in the coke region was made on April 1, 1912, when wages were advanced the rate of 10 per cent. The 1910 scale, in turn, was an advance over that of 1909, not in effect restored the rates of wages which had been established on March 1, 1909.

An indication of the advance in wages in the region is shown in the comparison between the new scale for mining 100 bushels of coal, or the coal as a basis. In 1904, immediately after the close of the big strike, this brought 78 cents. The changes follow: Scale of February 10, 1894, 74 cents; April 1, 1905, 90 cents; October 1, 1905, 94 cents; January 1, 1906, \$1.02; April 29, 1909, \$1.12; March 1, 1909, \$1.25; January 1, 1909, \$1.35; December 1, 1909, \$1.40; March 1, 1909, \$1.45; April 1, 1912, \$1.44; February 1, 1916, \$1.55.

During this same period, day labor has been paid on the basis of \$1.25 to \$1.65 in 1910 to \$2.50 to \$3.00 in 1916.

BIDS ARE ASKED.

Plans for New Moving Picture House are Approved.

Plans for the new moving picture theatre to be erected in North Pittsburg street by C. A. Wagner and John Whitworth, have been returned from the board of health with approval. The only change made in the plans was for an extra exit on the left hand side of the building making eight exits in all.

The plans will be submitted to contractors for bid and work will be commenced on the building as soon as possible.

IS WILLARD \$7,000.

Arthur J. Younk of this city, beneficiary under the will of his uncle, E. H. Younk, who died at Scotts Landing, Somerset county, on March 10, 1915, Mr. Younk received a check for \$7,000 from the executor, W. H. Koller, on Saturday.

\$812,644.12 WAS EXPENDED BY THE COUNTY IN 1915

For Maintenance, Payment
of Debts and for Im-
provements.

THE COUNTY HOME A BIG ITEM

The County Home and the Home and County Offices Call for Large Amounts; All Save Two Show More Expensive Than Income.

The annual report of Henry Kline, county controller, shows that during the past year ending January 3, Fayette county expended \$812,644.12 for all purposes comprehended by the administration of the county. The report shows that the county home and the county offices call for large amounts; all save two show more expensive than income.

The county home and the county offices call for large amounts; all save two show more expensive than income. The county home and the county offices call for large amounts; all save two show more expensive than income.

SECOND AIR RAID ON PARIS DOES NOT CAUSE GREAT HARM

Big Zeppelin Drops All of
Its Bombs at Once When
Pursued.

THEY FALL UPON BARE GROUND

Center Permits Telegraphing of Such
Details as Are Available; Air-
planes Give Chase and Inevitably
Make Heavy Gains; No Life Lost.

By Associated Press.
PARIS, Jan. 31.—Several bombs were dropped by the Zeppelins which flew over the outskirts of Paris last night, but they produced no such deadly effect as on the occasion of the first Saturday night. The official press bureau gave out the following statement this morning:

"A German dirigible set out in the direction of Paris, where it arrived some after 10 P. M. It was accompanied by our special battery and attacked by our aeroplanes. Before returning northward it dropped a number of bombs which, according to the news received so far, did no damage."

Representatives of the Mail who were in the city today said that a number of bombs were dropped by the Zeppelins, but that no damage was done by the bombs. Three of them fell on a piece of waste ground and three others in a field. A police inspector saw the three which fell in the field. They did not sink deep in the soil. They were covered with a cotton-like substance which burst into flames. The inspectors characteristic them as incendiary bombs.

The Mail says that it has received information from the postmaster of one of the places over which the Zeppelins passed and that a number of bombs were dropped together. The inference is drawn that the Germans, seeing themselves threatened by French aeroplanes, decided to lose all their bombs at once.

The censor permitted foreign correspondents to telegraph whatever details they could obtain, but the Paris morning papers have many blank spaces.

BANK RUN CONTINUES

Meantime, Pittsburg Concern Seeks
Those Who Spread False Stories.

By Associated Press.
PITTSBURGH, Jan. 31.—The run which started Saturday on the Farmers' Deposit Savings Bank continued today, the line extending from the Fifth avenue entrance to Wood street, along that thoroughfare to Oliver avenue, and east almost to Smith street. Twenty-five feet and mounted police kept the crowd in line and there was no excitement.

All local demands were met in the bank, but depositors whose accounts exceeded \$100 were given that amount for the remainder.

Announcement was made at noon that the bank had offered \$5,000 reward for the arrest and conviction of the persons who had circulated false stories which started the run, and \$100 for the persons who circulated such stories.

The audit of the estate of Charles K. Sullivan of Connellsville, who died in the Connellsville hospital July 22, 1914, shows the estate to be insolvent. He left a wife and one child, Crawford Sullivan. There is a balance of \$12,121.73 in the estate, which will allow 6 1/2 per cent on the balance of the estate.

The distribution order is: S. K. Sullivan, \$12,121.73; Dr. George P. Sullivan, \$10,311; Dr. C. H. Sherry, \$14,421.

BAPTISTS ARE WORKING ON TABERNACLE TODAY

Roofing is Finished and Wiring is Be-
ing Done Inside; Cottage Prayer
Meetings Tomorrow.

The roof on the Bob Jones tabernacle was finished by noon today and the wiring of the building has already begun. Skilled carpenters are still working on the platform, and it will probably be given the finishing touches this evening or tomorrow morning.

The members of the Baptist Church are on the job today. There is a good turnout of them, about 30 reporting. More are expected this afternoon. A chicken dinner was served at the Baptist Church today by the ladies of the church.

The stoves have arrived from Scotland and will be set up as soon as they are taken to the tabernacle. This may be done this afternoon. Instead of having the ten doors required by the law, 12 will be cut. Three will be cut in each side and there will be six at the front end.

The roofing of the building was delayed Saturday afternoon by the high wind. Most of the big force this morning worked on the roof. After the roofing is on, it does not matter much what kind of weather follows, for all other work will be on the inside.

It is possible that some volunteers may be secured to do a little night work after the lights are installed. Paul McDonald had several men on the job today and the building is thoroughly wired. Should any work be done at night the time lost on Saturday could be made up.

A delegation of 100 church-goers from this place attended the tabernacle meeting at Scottsdale Saturday evening. The delegation included members of all the churches of the city, and although the weather was stormy, almost double that number were waiting on cars. A special car had been promised, but it did not show up and an entire carload of people was turned back. At Scottsdale the car was met by a band and a special reservation was made for these attending from this place. Thursday evening there will be another delegation go to Scottsdale.

Cottage prayer meetings will be held tomorrow evening in the following districts:
No. 1—Mrs. Frank Conway; Mrs. Austin Hoover, leader.
No. 2—Mrs. Henry Sullivan, Snyder street.
No. 3—Mrs. Jesse Lohr, 135 East Review avenue; Mrs. Vinnie Graft, leader.
No. 4—Mrs. Rice; Mrs. J. Curry, leader.

FIRE HAZARDS ARE FOUND DOWNTOWN BY THE FIREMEN

Crossed Wires and Defective
Gas Pipes Discovered Dur-
ing Inspection.

WILL BE REMEDIED AT ONCE

Plan Inaugurated by Superintendent
of Public Safety. Firemen
Have Brought Good Results; Firemen
to Study Details of the Buildings.

Dangerous fire hazards are being discovered in buildings of the business section. Through the inspection begun last week by the department of public safety, one by building in a district where a fire would prove especially disastrous was found to have two different sets of crossed wires, either of which might start a fire at any time.

Bad gas fittings have been discovered in a number of business buildings and other bad conditions have been found. Owners for the most part are surprised at the discoveries of the inspectors, but they are willing to co-operate by remedying the conditions at once. The owners of the structures in which the crossed wires were found said that he had no idea that such things existed.

The inspection of buildings has been on for only a few days. It will be continued through the month of February and the information secured will be entered in a card index system at the department headquarters. Monthly inspections will be made thereafter and checked up on the cards. Both paid and volunteer firemen will hold meetings at which various buildings will be discussed and the causes of lighting fires there discussed.

The system inaugurated by Superintendent of Public Safety M. B. Pryce promises to eliminate many fire hazards and to give the firemen valuable information as to the construction of all buildings in the fire limits. The cards upon which the inspection data is recorded are 5 1/2 by 8 inches and contain spaces to show by each inspection made for each month and blank space for giving detailed information as to construction, wiring, gas pipes, chimneys, fire escapes, number of families, sky lights, heating plants, location of nearest fire alarm box, etc.

In which sketches of the basements of the buildings are to be drawn.

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is indicated by a horizontal line. The subject is instructed to move their hand from the starting point to the target. The video screen is connected to a computer system, which records the hand's position and movement time.

**Secret of Keeping
Youthful Looking**

(The Beauty Seeker.)
The secret of keeping young-looking lies in the liver, says a well-known hygienist. The liver and bowels normally excrete about three ounces of waste matter each day. If they fail to do so, the waste matter will remain in the system, poison it, and produce wrinkles, blotches, pimples, and blemishes. One becomes flabby, obese, and sluggish, dull-eyed, wrinkled face, and the liver and bowels working as hard as ever without producing outward effects.

The secret of youthfulness consists of unobstructed ment, which can be obtained by taking a small handful in convenient tablet form, known as "Vegetable Soap," or its root, called "Vegetable Compound." It is composed of vegetable oil, sugar, and lemon juice. There is no habit-forming element in this medicine, and its use is not followed by weakness or drowsiness. On the contrary, these tablets tend to improve the circulation, relax the intestinal wall, and remove all poisons from the blood, which may be prepared from time to time. A dose of one or two tablets will cost 60¢—will keep you clean and free from constipation, liver-

Constipation Cure
